## **Awareness session on Anti – ragging by Col. (Dr.) Derek D’Souza.**

**Col. (Dr.) Derek D’Souza**, *Director, Students Training & Development, DPU* addressed all the BBA students attended the lecture on Anti ragging rules and regulations. The speaker started with making everyone aware about what actually counts in ragging and further spoke about the anti – ragging laws. He read out the notification given by UGC to all students and discussed the seriousness about the same.

All the students were made aware about how to file complaint in case if ragging is experienced by them. Further, he spoke about how quickly the committee takes action if a complaint is received.

Thereafter, the session was taken on Ethics, Soft Skills, and Personal Growth & Self –development for professionals. He showered his knowledge on multiple topics like values, reflection, and how all this terms are important for us in life.

Session was filled with enthusiasm when sir took an activity to identify the high points of the student’s life and made them interact through letting them narrate it in front of the class. He also shared a story on true happiness. A Group activity was conducted, where groups had to select 6 items from the list of 12 items to survive on a desired island and justify the reason for the selected items. After everyone did their best to select items sir told about the use if every items and importance of the one item everybody ignored and added the value of never underestimating the potential of anyone.

## **Session by Dr. Babasaheb Jadhav on ASSESSMENT PATTERN & EXAMINATION SYSTEM**

Dr. Babasaheb Jadhav, Associate Prof., GBSRC began with overview of the specialization offered by the institute and many other points like, importance of Exams, grades are temporary but education is permanent, and other important aspects of life. A detailed discussion was held on examination process and the role of examination department, how to fill examination form, and information about ERP was provided. Overview of credit and grading system was provided along with internal and external examination.

There are six courses available for FY-BBA which carries 50:50 evaluation system including internal as well as external exam, besides the Continuous Concurrent Internal evaluation. Detailed overview of CCE Continuous Concurrent Internal evaluation was conducted that includes mid-term, term-end, assignments, project and activity based learning, case study, class presentations and attendance. Minimum attendance to appear for examination is 75% and passing criteria is 40% in both internal as well as external examination. In case of backlog the student have to give the examination again in next semester. SIP and Internship is of 2 months and in mid-term, students will get options in the question paper. Talking about grading system and GPA, he said CGPA will be given out of 8. He said Exams are just a medium to evaluation and shared best wishes to all the students.

### **Session by Dr Deepali Garge on Awareness about Women Anti - Harassment committee**

**Dr Deepali Garge**, Associate Prof, GBSRC, presented with an overview about the mission of GBSRC. Discussing about the respect for women, a video was shown about women harassment across countries. Hence, the issue is of global importance. Ma'am talked about the committee which is responsible for Women Anti – harassment and introduced the students to the Members of the committee. Later on she talked about do's and don'ts of the committee.

### **The science behind rational decision making BY: Dr. Villis Pawar**

**Dr. Villis Pawar**, Assistant Professor, GBSRC covered in detail the science behind rational decision making. Sir talked about the **rational** word in detail. Later, he talked about decision making using some case studies.

### **Teaching learning pedagogy BY: Dr. Jayashree Patole**

**Dr. Jayashree Patole**, Assistant Professor, GBSRC made the students aware about the BBA course structure in GBSRC wherein the students came to know about the total semesters and credits and total marks in this course in the period of 3 years. Also how the credits are earned by students based on various parameters was included in the session. The session also included different topics like specialization offered by the University. Moreover students came to know about the Teaching pedagogy here at GBSRC and learning pyramid.

### **Lessons and morals of life BY Mrs. Monika Joshi**

**Mrs. Monika Joshi, Manager, CSR-Volunteering for Asia Pacific, TATA Technologies Ltd.** interacted with all the students from BBA and MBA together in the smart classroom. She told different stories to students based on which she focused on important lessons and morals of life required for leading a better life and which would help them in sustaining in corporate world. She told 3 stories to students. And then she asked them few questions and interacted with them and shared her experience of corporate life and further answered few questions asked by the students. Later on she discussed about her college life experience and how she changed her perspective towards studies and life.

### **Getting started with ERP BY: Dr. Priyanka Bobade**

**Dr. Priyanka Bobade**, Associate Professor, GBSRC conducted the session on college ERP to make the students aware about the ERP of the college with complete details with the practical demonstration. The session included the topics of varied ERP toolbar like attendance and e-notes and others like library, timetable, assignments etc. The session was quite interesting and students were responsive towards the adaptation of ERP.

### **Life at Campus BY: Dr. Snehal Maheshkar**

**Dr. Snehal Maheshkar**, Professor, GBSRC interacted with students and started with a small activity which taught the students that whatever we do there should be a purpose to do that. Further, the session got more interesting as ma'am related the topic to the real life and hence students also participated enthusiastically. Then the session headed towards VUCA world which stands for Volatility, Uncertainty, Complexity, Ambiguity and how to overcome this. It was discussed that how co-curricular activities help us to build our personality and how we learned varied things from that like team building and gaining confidence. At last madam also showed an AV prepared by her which included the images of all the events which takes place here at GBSRC.

### **Management Games**

After the lunch break students were taken to play few management games. First game was about passing on the action to our next person which taught the students about nonverbal communication. The second game was played balloon passing where players were divided into teams of 3 and had to pass on the balloon from start to end point. 8 teams played the game wherein team 4 won the game by successfully passing 5 balloons within 2 minutes.

Third game was played of bridge crossing where the students interacted with each other and learned about coordination and management within a team while performing a task in minimum time and then students played musical chairs at the end. Overall all the games were meant to teach freshers about importance of working as a team and complete any game or task given to them efficiently.

### **Ice – Breaking session**

After a break for 45 minutes, there were many activities for ice-breaking and for students to open up. The activity involved introducing every student based on their residence. This was followed by a flashcards game and the session was concluded by a game of Dumb Charades.

## **CULTURAL EVENTS**

On the last day of Induction program a cultural event was organized for BBA and MBA students in the seminar hall. Around 50 to 60 Students were present in the seminar hall along with faculty members. Around 20 performances were performed in the events which included Group dance, duet dance, solo singing, solo dance, skit, Rap show and poetry. Every performance was successful in engaging the audiences and entertain them. The event ended with the flashmob performed by the MBA students and at last the music was played and everyone came together to dance on the beats. With this the BBA induction program of 5 days was successfully completed.
